AIR FILTERS

JOIN THE FIGHT AGAINST AIR POLLUTION!

Toyota Genuine Air Filters:

- Utilize high quality media to prevent contaminants from being ingested into the intake and engine assemblies.
- Based upon the OE factory design Toyota offers 4 different types of filters: Polypropylene (PP), Full Fabric Air Filter (FFAF), Paper Air Filter (PAF) and Multi-Layer Air Filter (MAF).
- Incorporate precision manufactured gasket material to prevent contaminants from bypassing the engine air filter.
- Offers both the original OES part numbers from the factory, and value MVP part numbers to satisfy customer's needs.

Tip: Changing your air filter **routinely** ensures that your engine maintains the **proper air flow** for maximum performance.

To ensure the most trouble-free operation of your Toyota, please check your vehicle's Scheduled Maintenance Guide or consult your Toyota dealer for proper air filter change intervals.
